Abstract

The present research article finds out the different letters / groups of different letters in the different words of English language beginning with the alphabets ‘A’, ‘B’ and ‘C’ having the same pronunciation. The word ‘pronunciation’ has been defined at the very beginning. The importance of pronunciation in English language is immense and it has been given in short. Different letters / groups of different letters in the different words of English language beginning with the select alphabets, having the same pronunciation, have been entered with their total numbers distinctly and their details with examples including words and phonetic transcriptions have been presented. It concludes with the view that if one acquires the knowledge of the pronunciation of the different letters / groups of different letters in the different words of English language having the same pronunciation, he / she will acquire the proficiency over the pronunciation of the different words in English language. Reference list has been added at the end.

Keywords: Different, English Language, Letters, Pronunciation, Same, etc.

The pronunciation is an act of producing sounds of speech. It includes articulation, stress, intonation, etc. It can be defined as, “the way in which a language or a particular word or sound is said” (Dhongde 1113). The proper pronunciation is the most important element in the use of English language as it leads to fluency, accent, meaning and understanding. Without knowing it, English language seems to be difficult. Therefore, one needs to know it. The present research is an attempt to make the readers know that in English language, there are different letters / groups of different letters in the different words beginning with the alphabets ‘A’, ‘B’ and ‘C’ having the same pronunciation.

Different letters / groups of different letters in the different words of English language beginning with the alphabet ‘A’, having same pronunciation, are 02 in numbers. The details of the same with examples including words and phonetic transcriptions have been presented as follows:

S. N.	Different Letters / Groups of Different Letters	Same Pronunciation	Examples	
			Words	Phonetic Transcriptions
1	a	/ɔ:/	<u>A</u> lbeit	/,ɔ:l'bi:t/
2	au		<u>A</u> burn	/'ɔ:bən/

The different letters / groups of different letters in the different words of English language beginning with the alphabet 'B', having the same pronunciation, are 54 in numbers. The details of the same with examples including words and phonetic transcriptions have been presented as follows:

S. N.	Different Letters / Groups of Different Letters	Same Pronunciation	Examples
